## Frontend Developer

### PRACTICAL EXPERIENCE

---

#### OAT Solutions, São Paulo, Brazil

##### 08.2020 - Current

Company specialized in business and IT process improvement through consulting, training and support.

#### "Frontend Developer"

##### Current

- I created a reusable code to facilitate future updates to the page;
- Together with the UX designer we create the page layout using UX techniques such as Mindmapping and Optimization;
- We created the "OAT Jira Academy" disclosure and registration pages for the 3 editions using WordPress.

[Click here to see the latest landing page](#)

#### "Quality Assurance Tester"

##### Current

I work together with the development team of the app for the Brazilian clients of the German company Zeiss Group.

##### As a QA Tester I:

- Development of test scripts for automated tests;
- Run manual and automated tests;
- Collaborate with developers and team members to identify key requirements and risk areas involved in the implementation of new features;
- Document the tests and create bug reports for the developers;
- UX Design Quality Assurance, carrying out tests with the UX team;
- Through testing I found that 47% of the users were not receiving the app updates due to the development restriction of the android version.

## ADDITIONAL SKILLS

---

- Communicative, I enjoy working with cross-functional teams;
- Adept of lifelong learning, I try to improve myself both through knowledge and through living with the people around me;
- Able to transition in several environments simultaneously without losing quality and dedication.

## VOLUNTEERING

---

### **SVB - Brazilian Vegetarian Society** Campinas, BR

A non-profit organization that promotes vegan food as an ethical, healthy, sustainable, and socially just choice.

### **"Assistant Event Coordinator"** 01.2018 - 04.2019

As Assistant Event Coordinator I participated in the whole process of the events, such as:

- Creating the scope;
- Client meetings and preparing budgets;
- Booking the venues and aligning with sponsors and exhibitors;
- I supervised the support and security staff;
- Helped with catering, cleaning the venue before, during and after the event.

## EDUCATION

---

### **"Anhanguera Educacional "** **B.sc. in Analysis and System Development** **01.2021 - 06.2023**

The course is divided into:

- *Fundamentals*, which includes programming logic;
- *Theory and practice* of programming languages like C#, Java, and Python;
- *Problem decomposition* and *culture* in agile practices.

### **"Alura Frontend School"** **03.2021 - current**

The frontend training includes:

- Fundamentals and practice in HTML5, CSS3 and JavaScript;
- Practice in frameworks, libs and processors like ReactJs, Sass and Tailwind;
- Fundamentals in SEO, web accessibility and UX/UI;

**[Access certificate here](#)**

## PROJECTS

---

### **"My Portfolio"**

It was developed using HTML5, CSS3 and Sass for a code and the JavaScript language to make the page dynamic.

The layout was created by me to make the user experience more harmonious.

### **"Beyond Books"**

An ecommerce application for selling new and used books. Developed using the Bootstrap framework and JavaScript language to make the page dynamic.

This application is still under development and uses an API for accessing a database and CRUD for creating forms and connecting to the backend.

## INTERESTS

---

I love to test new vegan recipes, take the dogs to the park, reading a new book or having a picnic. On weekends, playing volleyball in the square, practicing archery and on the rainy days researching new places to travel, binge-watching a new TV show or standing in line at the movies for the premiere of the week.
